⚠️ Disclaimer

This report and repository were **personally written and completed by me**, Taher Hamid, as part of a **learning activity** for the **Google Cybersecurity Professional Certificate** on **Coursera**.

All instructions, scenarios, and datasets used in this project were **provided by Coursera and Google** solely for **educational and non-commercial purposes**.
The analysis, findings, interpretations, and written explanations in this repository are **my own original work**, created in response to the course activity requirements.

I do **not claim ownership** of any Coursera-provided materials, lab templates, or instructions.
This repository exists only to **document my individual learning progress** and **showcase my understanding of cybersecurity analysis** concepts.
